

**Ph.D. Qualifying Exam
Remedial Action Requirement**

Name: _____

Student ID: _____

Program Track: _____

Advisor: _____

Home Campus: _____

Date of Program Entry: (check semester)

Fall Year: _____

Spring

To the Student:

The results of the Ph.D. Qualifying Exam which you took on _____ revealed certain deficiencies which, in the judgment of the Examining Committee, contributed to your final outcome assessment of “conditional pass.” This means that remedial action from you on your research proposal is required in order for the committee to render a final judgment on your Qualifying Exam.

Attached to this document is a written description of the specific items of your presentation which need to be addressed. You must satisfy all of these items in order to pass your Qualifiers and proceed with your Ph.D. program at SBES. Please refer to the attached document for details pertaining to a timeline for completing the remedial action(s). If you fail to meet this deadline, the exam outcome will revert to a “fail”.

A copy of the Exam Outcome form, with the “conditional pass” recorded on it, will be placed in your file here at VA Tech as well as at Wake Forest. When you complete the remedial action work in the allotted time, the Examining Committee will reconvene to evaluate what you submit after which a decision will be made. You will receive formal notification of the committee’s decision, and a copy of the decision letter will go into your student file.
